Redefining security

At Allegion, we help keep people safe and secure where they live, work and visit. We specialize in security around the doorway and in adjacent areas: everything from residential locks and portable security to commercial locks, exit devices, openers and closers, electronic access control and workforce productivity solutions.

At the core of our \$2 billion business is the knowledge and experience of more than 9,000 dedicated employees behind our brands. We help customers navigate their toughest security challenges, and we help builders and property owners differentiate themselves by providing innovative and secure solutions. Our trained experts not only help customers adhere to codes and standards - we help advocate for security standards around the world.

Allegion by the numbers

Several of Allegion's brands created their respective product categories, including Schlage® (cylindrical locks), Von Duprin® (exit devices), LCN® (door closers), SimonsVoss® (keyless access) and CISA® (electrically controlled locks). Many of our brands are leaders in their markets and product categories and have long-standing reputations for innovation and quality.

Allegion's Pioneering Heritage

Allegion is known for its innovative security products and solutions, with brands that have established leadership positions in their markets and strong reputations for quality. Those brands have roots in businesses from as early as 1750, and many have since created their respective product categories. Below are a few of our leading brands:

1782

Bricard®
established in 1782 and later invented the master-key system.

1908

Von Duprin®
invented the exit device, and received the 1st patent of that type in 1909.
Ranks No. 1 in its category in North America.

1920

Schlage®
awarded the 1st patents for cylindrical and push-button locks.
Ranks No.1 in its category in North America.

1926

LCN®
created the door closer in response to a request by Boston's Trinity Church.
Ranks No. 1 in its category in North America.

1926

Cisa®
patented the first electrically controlled lock.
Ranks No. 1 in its product category in Italy.

1976

Interflex®
created to supply a complete solution for productivity, security and workforce management.
An European market leader.

1995

SimonsVoss®
took security to a new level with the keyless digital transponder.
Among the Top 3 in its category in Europe.

2013

Allegion™
created as a spin-off to bring greater focus to safety and security.
Became a constituent of the S&P 500® on Dec. 2, 2013.

Allegion in Europe, Middle East, India & Africa

AXA

With a history going back 110 years, AXA is an authority in supplying door and window fittings and has built up an excellent name in the field of burglar-proof security products. As specialists with knowledge of door and window fittings, AXA can offer good and fast solutions. Every day a team of specialists works on the development, production and marketing of AXA quality products. Quality, which is demonstrated in the materials used, the dimensional stability, the finish and the lifespan of the products. But also the quality you see in delivery reliability, extensive documentation and expertise of our staff.
